

I'm a UI/UX designer focused on creating intuitive, user-centered digital experiences. I've redesigned 20+ screens for SaaS platforms, built scalable component libraries, and crafted drop-culture experiences aligned with real user behavior. Design is my craft. Shipping is the goal.

EDUCATION

Seneca College, Canada — Interactive Media Design Diploma
Skillbox, Online — Web Design Certificate

Jan 2023 – Feb 2023
2024 – Present

WORK EXPERIENCE

YouTransport — UI/UX & Web Designer

Internship · German Moving & Logistics Company · Apr 2025 – Present

- Designing full website UI for a German furniture moving company — service pages, booking flows, and review sections from scratch
- Creating responsive mockups and component systems ensuring a clean, trustworthy experience for German-speaking users

CLM Mafia Platform — UI Redesign

Sports Management SaaS · Role-Based UX · Completed

- Redesigned 20+ screens across 3 user roles (players, admins, clubs) — reduced navigation depth and simplified key task flows
- Built a scalable component system replacing an inconsistent legacy UI across the entire product

Nova Bank — UI/UX Designer

Mobile Banking App · Portfolio Project · Revolut-Inspired

- Designed full mobile banking experience: onboarding, dashboard, transactions, and card management — built around clarity and trust
- Developed a clean design system with accessible typography and color tokens optimized for high-frequency mobile use

Unnie Box — UI Web Designer

E-Commerce Landing Page · Conversion-Focused

- Designed a 9-section landing page with 5 modal flows structured as a learn → trust → purchase funnel
- Built a complete component library from scratch, reducing design-to-dev handoff friction
