Work Experience

Unnie Box — UI Web Designer

E-COMMERCE LANDING PAGE · CONVERSION-FOCUSED

- Designed a 9-section landing page with 5 modal flows, structured as a learn → trust → purchase funnel — targeting measurable conversion lift
- Built a complete component library from scratch, reducing design-to-dev handoff friction
- Optimized CTA placement and visual hierarchy on mobile-first layouts for higher tap-through rates

Avion Furniture — UI

E-COMMERCE PLATFORM · MOBILE & WEB

- Designed wireframes, prototypes, and visual designs for mobile and web-based products
- Conducted usability testing and iterated on design solutions based on user feedback
- Collaborated with developers to ensure that designs were accurately implemented and met accessibility standards

CLM Mafia Platform — UI Redesign

SPORTS MANAGEMENT SAAS · ROLE-BASED UX

- Redesigned 20+ screens across 3 user roles (players, admins, clubs) — reduced navigation depth and simplified key task flows
- Built a scalable component system that replaced an inconsistent legacy UI across the entire product
- Improved readability and information hierarchy in data-heavy dashboards, directly increasing scan speed for admin users

MSCHF Platform — UI Designer

DROP-CULTURE PLATFORM · BRAND-DRIVEN DESIGN

- Designed 5+ screens (drops, product pages, lookbook) fully aligned with MSCHF's yellow/black brand identity — zero generic templates
- Rebuilt the information architecture around urgency and drop culture, implementing countdowns, limited-drop badges, and FOMO-driven UX patterns
- Optimized the entire experience for mobile-first — matching real user behavior in drop events

Skills

- UI/UX Design
- Interaction Design
- Visual Design
- Responsive Design
- Branding
- Motion Graphics
- User-Centered Design
- Problem Solving
- HTML CSS JS
